Summary

Full-stack developer working across ReactJS, Next.js, Node/Express and PostgreSQL, with production experience building and deploying internal business tools on Linux servers with Docker. Comfortable across the stack – REST API integration, relational data modelling and reporting over multi-million-row datasets – and used to shipping from scratch, iterating on user feedback and working in small agile teams.

Technical Competencies

- **Frontend:** React-vite | ReactJS | Core Java | HTML | CSS | JavaScript
- **Backend:** NodeJS, Express
- **Database:** PostgreSQL, MySQL, MongoDB
- **Tools & Version Control:** Git, GitHub, Docker, Linux
- English – Professional Working Proficiency, Hindi – Native or Bilingual Proficiency

Experience

- **Data Analyst, Bookchor** Jun 2026 – Present
 - Built a reporting dashboard over a 6.5-million-row PostgreSQL corpus, with aggregation written as SQL views and functions rather than in the application layer.
 - Found that product identifiers were being matched by field name instead of by checksum, recovering 869,000 valid records that were being silently discarded.
 - Developed internal web tools for GST invoicing, stock and ledgers, containerised with Docker and deployed on Linux servers.
 - Automated data collection across 100+ supplier sources, normalising inconsistent fields into a single queryable schema.
- **Myitronline** Aug 2025 – Sep 2025
 - Developed responsive and interactive UI components using ReactJS and Tailwind CSS.
 - Collaborated with backend teams to integrate RESTful APIs and optimize frontend performance.
 - Assisted in debugging and improving frontend code for better user experience and faster load times.
- **NullClasses** Jul 2024 – Aug 2024
 - Built full-stack applications with a strong focus on frontend development using ReactJS.
 - Implemented user authentication flows and dynamic search interfaces with real-time updates.
 - Enhanced UI components for better usability and responsiveness across devices.

Projects

- **Skurra – Managed Software Service**
 - Next.js 15 / React 19 catalogue site for a managed-software venture, built end to end and deployed on a Linux VPS with Docker behind a private Tailscale tunnel.
 - Admin back office covering clients, GST-ready invoices, scopes and agreements, with token-protected access.
- **PackTrack – Scan-to-Box Packing System**
 - Flask and SQLite warehouse tool: upload an order sheet, scan each barcode, and get per-box printable packing lists plus unknown and remaining reports.
 - Session-based access-code gate on every route, containerised with Docker and served over a private Tailscale tunnel for on-floor use.
- **Margin Check – Procurement Margin Analyser**
 - FastAPI and PostgreSQL app matching supplier quotations against a purchase order to report per-title margin, with a column-mapping importer for any spreadsheet layout.
 - Parses 17+ supplier PDF invoice layouts, splitting multi-copy lines into individual records so quantities and invoice totals reconcile exactly.
- **YouTube Clone – Full-Stack Video Platform**
 - Next.js and TypeScript client over a Node/Express and MongoDB API, with Firebase auth, Cloudinary media storage and a custom video player (playback speed, picture-in-picture, keyboard shortcuts).
 - Implemented uploads, channels, subscriptions, playlists, watch history and threaded comments, plus peer-to-peer video calls over WebRTC with Socket.IO signalling.

Education

- **Bachelor of Technology (CSE)** 10/2022 – 07/2026
 - Gateway Institute of Engineering and Technology, Sonipat, Haryana
- **Senior Secondary Education** 2021
 - Shiva Shiksha Sadan School (CBSE), Sonipat, Haryana

Certificates

- Data Structures & Algorithms, ReactJS, CSS3 – LinkedIn Learning | Modern JavaScript – Coursera | C Programming & Data Structures – Great Learning

Leadership & Extra Curricular Activities

- President, Codex Club – organised coding workshops and hackathons; Head Coordinator, Technical Fests Genesis (2025) and Yugantar (2024); Coordinator, Web Wizardz (2023)
- Team Leadership | Management & Coordination | Decision Making | Verbal and Written Communication
